

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Humble Oil & Refining Company F.F. Hardison Et Al "B" Well No. 1 in SE/4 of NE/4
 Company or Operator Lease
 of Sec. 34, T. 21-S, R. 37-E, N. M. P. M., Extension to Drinkard-Yesso Field.
 Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was drilled to a total depth of 6572'. 5-1/2" casing was set and cemented to 6572'. The well was completed as an oil well through casing perforations from 6420' to 6480' and from 6500' to 6560'. Upon initial test, the well produced at the rate of 624 barrels per day with a gas oil ratio of 762. The accompanying plat gives our interpretation of the depth and location of wells completed below the San Andres productive horizon. Circled in red are those wells which we understand have found their production from the Drinkard-Yesso horizon. It will be noted that all such wells are more than 2 miles distance from the Hardison well.

Approved 19 June 1946
 except as follows:

for 32,100 bbls.
