Re: Reclassification of Well
Marshall #3-D 34-21-37
Blinebry Oil and Gas Pool

Gentlemen:

Due to the recently submitted "scheduled" gas/oil ratio test for the above-referenced well, the well will be reclassified as a gas well in the Blinebry Oil and Gas Pool effective January 1, 1989, and the oil allowable cancelled that date.

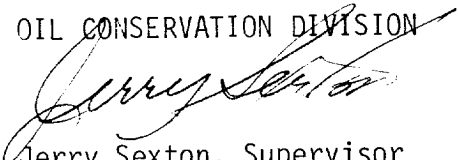

If for some reason you feel this test does not reflect the proper classification of the well, please submit another test for our consideration by November 10, 1988.

If the well is to be reclassified from oil to gas, please submit the following by November 10, 1988:

- 1) C-102 outlining acreage dedicated to gas well and NSP if applicable
- 2) C-104 if gas transporter changes due to reclassification
- 3) Advise if gas well gas is separately metered.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton, Supervisor
District I

CC: D.R. Seale

11-18-88

This well is already classified as a gas well, according to our records. We request that it remain so. Attached are the requested forms. The gas is being metered separately. If you have any questions, please call (915) 688-2583
