RE: Lockhart A-35, 3-C, 35-21-37

Gentlemen:

It has come to our attention that the wrong zone had been abandoned on the above referenced well. Apparently and inadvertently switch was made between well Lockhart B-35, #3 and Lockhart A-35, #3.

As you will readily see by the enclosed copies the work had been done on the B-35, #3. We are changing our records accordingly to reinstate the Tubb Pool on the Lockhart A-35, 3-C, 35-21-37.

Yours very truly,

OIL CONSERVATION DIVISION

MESSAGE: API # for Luckhart B-35 #3

30-025-07034

Looks like paperwork has API + Location for the

A-35 #3 - But work was done on the B-35 #3.

Re: Lockhart A-35 Well No. 3
Unit C, Section 35, Township 21 South,
Range 37 East, NMPM, Lea County, New Mexico
Blinbry and Tubb Oil and Gas Pools and
Drinkard Pools

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from all three pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the three zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's Southeast Gas Proration Schedule.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Blainebry Pool: Oil 53%, Gas 61%
Drinkard Pool: Oil 20%, Gas 8%
Tubb Pool: Oil 27%, Gas 31%

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours

WILLIAM J. LEMAY,
Director

Lea County, New Mexico

Gentlemen:

Your request to downhole commingle the Blinebry/Drinkard/Tubb oil and gas zones is hereby approved.

Please contact Shannon J. Shaw at (505) 887-6544 if you have any questions or comments.

Sincerely,

A handwritten signature in dark ink, which appears to read "Richard L. Manus", is written over the typed name.

Richard L. Manus
Area Manager
