BEFORE THE OIL CONSERVATION COMMISSION
OF THE
STATE OF NEW MEXICO

IN THE MATTER OF THE APPLICATION OF
CONTINENTAL OIL COMPANY FOR AN ORDER
GRANTING IT PERMISSION TO DUAL COMPLETE
ITS A. M. Lockhart B-35 No. 2
NW/4 NE/4

SECTION 35, T. 21S, R. 37E, N.M.P.M.
LEA COUNTY, NEW MEXICO

APPLICATION

Comes now CONTINENTAL OIL COMPANY, a Delaware Corporation, hereinafter called "Applicant" and respectfully requests the Oil Conservation Commission of the State of New Mexico to issue an order authorizing Applicant to dually complete its A. M. Lockhart B-35 No. 2 well, located 660 feet from the North line and 1,980 feet from the East line of Section 35, T. 21S, R. 37E, N.M.P.M., Lea County, New Mexico, in the Drinkard Oil Pool and the Blinebry Gas Pool, and in support thereof would show the following:

The proposed gas unit contains 160 acres consisting of contiguous quarter quarter sections.

The dual completion of said well in the Drinkard Formation for oil and the Blinebry Formation for gas is in the interest of conservation and the protection of correlative rights.

Segregation of the producing intervals will be made by appropriate packer installation and said well will be equipped so there can be no comingling of well fluids in producing the gas through the annulus between the tubing and casing, and the oil through the tubing. Said well will be equipped in such a manner that reservoir pressures may be determined separately for each of the two specified pools and the well head equipment to be equipped with all necessary connections to permit accurate measurement of any natural gas, oil, or oil and gas produced from each separate pool as may be required by the Commission.

Attached to this application is a plat showing the location of said well and surrounding wells and leaseholds with the acreage to be assigned the proposed gas unit outlined in red, a plat showing the mechanical condition of said well at present and after the proposed dual completion.

All offset operators have been duly notified by copy of this application.

WHEREFORE, Applicant respectfully requests the Oil Conservation Commission of the State of New Mexico enter its order authorizing Applicant to dually complete said well in accordance with the foregoing application and rules and regulations of the Commission.
