P. O. BOX 558
Midland, Texas

January 7, 1954

Mr. R. E. Spurrier
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

The Ohio Oil Company respectfully requests that the Oil Conservation Commission of New Mexico grant this application of Ohio for authorization to dually complete its Mark Owens Well No. 3, in Section 35, Township 21-S, Range 37-E in the Drinkard Pool, Lea County, New Mexico.

This well is presently producing in the Drinkard pay. Ohio is also desirous of completing this well dually in the Tubbs gas pay in such a manner as to produce gas through the annulus between the tubing and casing, and Drinkard oil through the tubing. Ohio intends to install such efficient packer in this well and perform completion of this well in such a manner as will prevent waste in either reservoir.

Subsequent to completion of the work, Ohio will present data showing the completion program on this well and plans for future tests to be made regularly to determine that waste is not occurring in either reservoir.

Respectfully submitted,

THE OHIO OIL COMPANY

D. K. Spellman, Jr.
D. K. Spellman, Jr.
District Petroleum Engineer *VHS*
