PRODUCTION - UNITED STATES AND CANADA

July 18, 1974  
P. O. Box 2409  
Hobbs, New Mexico 88240

New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

ATTENTION: Mr. A. L. Porter, Jr.,  
Secretary-Director

Gentlemen:

Re: Application for authority to  
dually complete Marathon Oil  
Company's Mark Owen Well No.  
4, located in Unit K of Sec.  
35, T-21S, R-37E, Lea County,  
New Mexico, for production  
of gas from the Drinkard Pool  
and oil from the Wantz Abo  
Pool.

Marathon Oil Company respectfully requests that the New Mexico Oil Conservation Commission grant administratively this application for the dual completion of Marathon Oil Company's Mark Owen Well No. 4 for production of gas from the Drinkard Pool and the production of oil from the Wantz Abo Pool. Attached hereto is the New Mexico Oil Conservation Commission Form C-107, "Application for Multiple Completion", fully executed, together with a diagrammatic sketch of the multiple completion and a plat indicating, to the best of our knowledge, the location of all wells on Marathon Oil Company's lease and all offset wells, along with other supporting data required by the Commission rules.

It is Marathon's opinion that the multiple completion of the Mark Owen Well No. 4, herein described, will effectively prevent communication between all zones, and that the approval of this dual completion will not cause waste and will not infringe upon the correlative rights of any other operator in any of the pools.

A copy of this application, along with attachments listed on New Mexico Oil Conservation Commission Form C-107 as Items 4(A), (B) & (C) have been furnished to all interested parties known to Marathon Oil Company.

Respectfully submitted,

MARATHON OIL COMPANY

C. S. Hilton, Jr.  
Operations Superintendent
