REQUEST RECLASSIFICATION TO OIL WELL

This well is a dual completion in the Tubb Oil & Gas and Blinbry Oil & Gas Zones. The Tubb gas-oil ratio test submitted on November 10, 1985 was erroneous due to communication between the Tubb and Blinbry zones. The Tubb zone was subsequently shut-in with a bridge plug set in the Tubb tubing string and will be repaired in the near future. Due to the erroneous Tubb GOR test, this zone was reclassified as a gas well by the OCD on 1/1/86. It is requested that the Tubb be classified as an oil well until well repairs are made and a new GOR test is submitted.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
