Attention Mr. Dale R. Crockett

Re: Gas Well Classification
State "Q" Well No. 1
Sec. 36, T-21-S, R-37-E
Blinbry Oil & Gas Pool

Gentlemen:

Concerning your request of November 1, 1978, that the subject well retain the present gas well classification until production data can be obtained, this is to advise that no action will be taken on the reclassification to oil before December 1st.

Prior to December 1st, please submit a gas-oil ratio test for the well and outline production history for the past several months, in order that a determination can be made regarding the proper classification of the well.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1

Re: Gas Well Classification
State "Q" Well No. 1, Blinebry Gas Pool
Sec. 36, T-21-S, R-37-E
Lea County, New Mexico

Gentlemen:

The Blinebry zone of this well was formerly being produced through tubing with cross-over choke which had to be changed because the Tubb zone of this well would not flow through the casing. We then had to alternate production from the Blinebry and Tubb zones. We are now producing the two (2) zones of this well through two (2) strings of tubing.

We request the gas well classification of the Blinebry zone of this well be retained until sufficient production data can be obtained to give a true producing status of this well.

Yours very truly,

A handwritten signature in dark ink, appearing to read "Dale R. Crockett".
