Hobbs, New Mexico

Gentlemen:

The recently submitted gas-oil ratio test for your State "Q" located in Unit N of Section 36, T-21-S, R-37-E, Blinebry zone, shows a ratio of 47,500 cubic feet of gas to 1 barrel of oil. Since the ratio is below 50,000 to 1, the well will be reclassified as an oil well in the Blinebry Oil & Gas Pool effective January 1, 1979, under the provisions of Division Order No. R-1670-N, Rule 26 (a).

Under the provisions of Rule 26 (d) of Order No. R-1670-N, consideration will be given to a request to continue the gas well classification if such a request is made within 10 days following receipt of this notification and is accompanied by supporting evidence.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
