Gentlemen:

An inspection of your Hester Lease in Lea County, was made January 21, 1986, and our inspector reported well #1-K had a waterflow from the bradenhead. You are requested to move in immediately to determine the cause of this problem and repair as needed. Please report your findings to me by phone and file required workover report forms.

Also, well #2 has been shut in for over 5 years and you are reporting as shutin waiting on worover on your monthly C-115. We feel this is too long to hold a well SI pending workover and would like to see work done before the #2 well developes a leak.

Very truly yours,

OIL CONSERVATION DIVISION
