☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

Abandonment

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is requested that the temporary abandonment approval for this well be renewed for another year based on the last successful casing integrity test in 10/21/92.

Sand consolidation remedial work is being performed on another well in this pool. If this work is successful, it may be attempted on SEMU McKee No. 50 so it can be returned to production in the Warren McKee Pool. This wellbore should be retained in light of this potential remedial work to return it to production.

TH 12/15/96

14. I hereby certify that the foregoing is true and correct
