Re: Lease Las Cruces 31(17)(1)

Gentlemen:

Receipt is acknowledged of Notice of Intention to Drill" dated April 11, 1957, covering your well No. 57 Warren-McKee on the subject leasehold in the NE 1/4, sec. 21, T. 21N., R. 31E., S. 1E., Warren-McKee Pool, Lea County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, copy of which will be furnished you on request, and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet (revised February 1955) for general conditions of approval.
2. Cement behind the 7 5/8" casing must cover the salt section as determined by temperature survey.

Very truly yours,

H. A. Dillont
District Engineer

(County or Subdivision)

New Mexico

(State or Territory)

The elevation of the derrick floor above sea level is ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

It is our intention to drill a well at the above location to a total depth of approximately 9250' with rotary tools in order to continue development of Elksee oil reserves and to meet demands of the U.S. for further development of federal leases comprising the Southeast Monument. All casing jobs will be cemented in accordance with approved methods of the U. S. Geological Survey and any other special requirements will be complied with.

It is planned to use the following casing program: 10 3/4" to be set at 250' and cemented with approximately 250 sacks; cement to be placed at 7 5/8" to be set at 4000' and cemented with approximately 350 sacks; 5 1/2" to be set at 9250', cemented with approximately 250 sacks and to be perforated opposite the pay zone.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
