Re: Reclassification of Well
Blinebry Oil & Gas Pool
Warren Unit Blinebry Bty 6 Well #10
Unit B, Sec. 28, T20S, R38E

Gentlemen:

You recently submitted a gas/oil ratio test for the above-referenced well which will classify the well as a gas well in the Blinebry Oil and Gas Pool. This well had been shut in since 1983 and at that time it was classified as an oil well with 40-acre dedication.

Now with this gas well classification you will need to submit an acreage dedication plat, Form C-102, outlining 160 acres for this well. The location (660/N & 2130/E) is unorthodox for a gas well with the NE/4 dedicated so you will need to obtain approval of the non-standard location from our Santa Fe office before an allowable can be assigned.

Also, you will need to know if the gas is separately metered.

Your prompt attention to this matter will be appreciated. If you have questions concerning this, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

ed

*submitted corrected test - well
is shut in*

P.S. If it changes from Battery 6 you will need to submit C-104 showing this change in lease name.
