Gentlemen:

Reclassification - Warren Unit No. 8

Your letter of October 29, 1976, informed us of the impending reclassification from gas well to oil well on our Warren Unit No. 8, Blinebry Oil and Gas Pool, effective January, 1977. This reclassification is the result of the test submitted for the Blinebry Oil and Gas Pool GOR Survey October 27, 1976.

We have since tested this well several times and believe the October test to be in error. The attached C-116 is the latest test on this well. It indicates the well is definitely a gas well. We respectfully request the well be returned to the gas well classification and the gas allowable reinstated.

Yours very truly,

BEG:rej
