DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed that Warren Unit B-29 Well No. 2, which was plugged and abandoned on September 25, 1950, be redesignated as Warren Unit B-29 Well No. 2-S to conform with the present method of designating wells in the Warren-Makee Pool and in order that all wells on the Warren Unit B-29 Lease will be similarly designated.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
