SUBJECT:

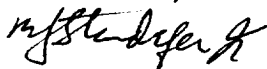

One Point Back Pressure Test
S. B. Fletcher "A" Well No. 1
House (Seven Rivers/Yates) Field
Lea County, New Mexico

Gentlemen:

Attached is Form C-122 for the S. B. Fletcher "A" Well No. 1. Due to the low flow rate and the low wellhead pressure, a back pressure test was not applicable here. After acidizing, this well was flowed through a 2 inch orifice meter with a one inch plate for 22 hours. Flowing to the atmosphere, the rate ranged from 399-385 MCFD. Considering these circumstances, we request that this test be accepted as the absolute open flow potential.

If you need additional information, please advise.

Very truly yours,

M. F. Standifer, Jr.
Engineering Technician
