Re: Proposed Recompletion
C. H. Kyte #1-L
Sec. 5, T20S, R39E

Gentlemen:

We have approved the proposed recompletion from the House San Andres Pool to the House Yates Seven Rivers Pool. The House Yates-SR Pool is a gas pool and is spaced on 160-ac proration units. The location, 1980/S & 330/W, is unorthodox for a gas well with 160-ac proration unit.

Before an allowable can be assigned to this well you will need to obtain approval of the unorthodox location and file a 160-ac plat.

It is noted you have indicated this proposed recompletion to be an oil well however, since it is adjacent to the House Y-SR Gas Pool it will be governed by those pool rules.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
