RE: RE-ENTRY OF John H. Trigg, Red Tank Unit Fed #1 (Your Cercion Federal #7)
Unit E, Sec. 22, T22S, R32E (API #30-025-08110)

Gentlemen:

A copy of your intent to re-enter the above-referenced well has been received from the BLM. It is noted that you have submitted a new surveyor's plat for this re-entry. The location shown on this new plat differs slightly from the original surveyor's plat submitted when the well was drilled in 1962. The original location was 1980/N & 660/W, and the new surveyor's location is shown as 1985/N & 657/W. Since we do not require that re-entries be resurveyed and also, since the API number for this well was tied to the original location, 1980/N & 660/W we request that you use that location on your paper work. A copy of the original survey plat is enclosed for your records. If you do not concur with this, please contact this office.

Very truly yours,

OIL CONSERVATION DIVISION
