Carper Drilling Co. Artesia, New Mex.

Gentlemen:

Reference is made to a letter from your office dated January 18, 1957 and addressed to Phillips Pet. Co., a copy of which was forwarded to us.

In this letter you indicate that although Forms C-110 filed for your Carper Randel Nos. 2-A in Unit B and 3-A in Unit G of Section 24, T-22-S, R-35-E show a casinghead gas transporter, you actually have no connection. If this is the case, you are hereby directed to file corrected Forms C-110 showing the gas to be vented. Also, it will be necessary for you to apply for a No-Flare Order for these wells at your earliest convenience.

In the future please show a casinghead gas transporter only when the connection has actually been made.

Yours very truly,

OIL CONSERVATION COMMISSION
