Re: State "B" lease - Sec. 25-22S-35E
Jalmat Pool, Lea County, New Mexico

Gentlemen:

Up to this time we have not had a gas connection on the above-captioned lease on which we have two producing wells. We have now received notice from Phillips Petroleum Company that they have approval to extend their gathering system to our State "B" lease and intend to purchase the gas therefrom. A photostat copy of letter from Phillips Petroleum Company advising us of this fact is enclosed.

We are sending this information to your office so that you may know that steps are being taken to sell the casinghead gas from this lease and just as soon as the line is brought into the lease Phillips will start purchasing the gas.

Very truly yours
