Re: Final Approval
Schermerhorn State No. 1
Unit P Section 36-T22S-R36E

Gentlemen:

Recently an inspection was made on the above captioned location and it was found that the tie downs had not been cut or removed, the cellar had not been filled and leveled, a considerable amount of junk has been left scattered around the location, and a pit has been left standing.

Please notify this office when the above work has been done, and another inspection will be made. If the location is found to be acceptable by the Rules and Regulations of the Commission, Form C-103 will be approved without further delay.

Very truly yours,

OIL CONSERVATION COMMISSION
