Pool. The formation of the proposed proration unit will protect correlative rights and will not cause but will prevent waste.

A plat is attached hereto which indicates the location of the proposed unit, the well, and the location of surrounding tracts. A copy of this application with diagram and plan attached has been sent by registered mail to each of the operators named on the attached list.

The Ohio therefore requests that the Commission enter an order approving the proposed dual completion and non-standard gas proration unit as described above without further notice or hearing and pursuant to the provisions of the applicable rules and regulations.

Each and all of the foregoing statements are true and correct.
