OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Continental Oil Company State N-M Well No. 12 in SW/4
Company or Operator Lease
of Sec. 2, T. 22S, R. 36E, N. M. P. M., Unexcavated Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

On the last official gas-oil ratio survey State N-M No. 12 showed 17 bbls. of oil, no water, in 24 hours through 25/64" choke with a gas-oil ratio of 9820 cubic feet per barrel. The gas-oil ratio has increased since that date.

In an attempt to increase oil production and decrease the gas-oil ratio, it is proposed to set a 4" OD liner on bottom and cement with approximately 50 sacks cement. The liner will be perforated as indicated by a radio-activity survey and the pay acidized and tested through the perforations.

Approved _____, 19____
except at follows:

Continental Oil Company
Company or Operator
