Mr. Joe Ramey
Box 2045
Hobbs, New Mexico

Dear Sir:

This is in regard to our discussion concerning our application for administrative approval for disposal of produced water from our Ramsay Block properties until our injection wells in the pilot flood have been reworked. This water will be disposed in the J. F. Janda "F" No. 17 as per attached application.

Our application for administrative approval is being submitted this date. It is requested that emergency approval be given for this matter in order that we may proceed with plans at the earliest date.

Yours very truly,

J. M. RUSSELL
Area Production Manager
