RE: Application to Dual Complete
Texas Pacific Oil Company's
State "A" A/c-2 No. 49
Unit C, Section 8, T-22-S, R-36-E
Lea County, New Mexico

Gentlemen:

Texas Pacific Oil Company respectfully requests Administrative Approval to dual complete the captioned well in the Jalmat Gas and South Eunice Oil Pools.

The South Eunice will be produced through the tubing, and the Jalmat Gas through the casing-tubing annulus. It is felt that the Jalmat Gas can be effectively produced up the annulus since it is a dry gas zone producing no distillate or water.

Copies of this application have been sent to all offset operators.

Sincerely yours,

John H. Hendrix
District Engineer

- * Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.
- NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
