17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The South Eunice oil zone in this well is no longer economical to produce and we propose to temporarily abandon it by placing a DR plug in 415-D packer @ 3672' and capping w/2 sx of cement. The well will then be completed as a single Jalmat-gas producer through 2-3/8" tubing with a 7" packer set at about 3100'.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
