THE UNIVERSITY OF CHICAGO

DEPARTMENT OF CHEMISTRY

The Department of Chemistry at the University of Chicago is one of the largest and most active in the United States. It is a center of research in all areas of chemistry, and is particularly strong in the fields of physical chemistry, organic chemistry, and inorganic chemistry. The department has a long and distinguished history, and has produced many of the leading chemists of the world. It is a place where students can receive the best possible education in chemistry, and where they can work with the best of teachers and colleagues.

The department is located in the heart of the University of Chicago campus, and is easily accessible by public transportation. It is a beautiful and historic building, and it is a pleasure to work and study there.
