

NEW MEXICO OIL CONSERVATION COMMISSION Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELL

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-offs, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

Title

1. The purpose of this document is to provide a comprehensive overview of the current state of the project and to identify the key areas for improvement.

2. The project has been initiated to address the growing demand for a more efficient and secure system.

3. The initial phase of the project has been completed, and the results have been analyzed.

4. The findings of the analysis indicate that there are several areas where the system can be improved.

5. The next steps in the project are to develop a detailed plan for the improvements and to implement the plan.

6. It is expected that the improvements will result in a more efficient and secure system.

7. The project will be completed by the end of the year.

8. The results of the project will be reported to the management.

9. The project has been assigned to the development team.

10. The project is currently in progress.

11. The project is expected to be completed by the end of the year.
