

**DUPLICATE**  
**REQUEST FOR PERMISSION TO CONNECT WITH PIPE LINE**

NEW MICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

**RECEIVED**  
 JUL 18 1940  
**RECEIVED**  
 HOOVER OFFICE

This request should be SUBMITTED IN TRIPLICATE. See instructions in the Rules and Regulations of the Commission.

Fort Worth, Texas

Place

July 15, 1940

Date

OIL CONSERVATION COMMISSION,  
 Santa Fe, New Mexico.

Gentlemen:

Permission is requested to connect Texas Pacific Coal and Oil Co., State New Mexico "A" Ac. 2  
 Company or Operator Lease

13, 14, 15, 16,  
 Wells No. 17 & 18 in NE & SE 1/4 of Sec. 11, T. 22-S, R. 36-E, N. M. P. M.,

So. Eunice Field, Lea County, with the pipe line of the

Skelly Gasoline Plant

Pipe Line Co.

Tulsa, Oklahoma

Address

Status of land (State, Government or privately owned) State

Location of tank battery

Description of tanks

Logs of the above wells were filed with the Oil Conservation Commission at completion of each well

All other requirements of the Commission have [~~have not~~] been complied with. (Cross out incorrect words.)

Additional information:

This is for connection for gas only.

Yours truly,

Permission is hereby granted to make pipe line connections  
 requested above.

TEXAS PACIFIC COAL AND OIL COMPANY

Owner or Operator

OIL CONSERVATION COMMISSION,

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) are bounded and tend to zero as  $t \rightarrow \infty$  if the matrix  $A$  is stable. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$  if the matrix  $A$  is not stable. It is shown that the solutions of the system (1) are unbounded and tend to infinity as  $t \rightarrow \infty$  if the matrix  $A$  is not stable.
