

El Paso NATURAL GAS
COMPANY

Memorandum

TO: All Concerned

DATE: January 18, 1979

FROM: Travis R. Elliott

PLACE: Permian Division Office
Dispatching Department

Attached are copies of Disconnection (1/10/79), Notice Of Connect (1/11/79) and Advice on Wells Tied In (1/16/79) on Atlantic Richfield's State 157-D-7 well.

When the well was tied in and also first delivered on January 5, 1979, after well workover, it was shown to be recompleted from the Eumont pool to Jalmat pool. The attached paperwork is incorrect. The State 157D-7 well should remain in the Eumont pool.
