17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was originally completed in the Upper and Lower Penrose zones in January, 1958. The Lower Penrose tested all water and was abandoned with a CIBP. Then the Upper Penrose was also plugged off and the well was completed in the Eumont gas zone which has since been shut-in. Rigged up pulling unit on July 27, 1983. Pulled out of hole with tubing. Ran back in hole with 4 3/4" bit and drilled cement and bridge plug from 3465 to 3473' in order to reopen the Upper Penrose perforations from 3528 - 94'. Pulled out of hole with bit. Ran in hole with Baker Model "R" packer and set at 3501'. Presently swabbing well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
