Re: NSP-1536  
McDonald WN #11-D, #27-O, #28-F 14-22-36

Gentlemen:

NSP-1536 approved a 480-acre non-standard proration unit for the above-referenced wells. It will be necessary for you to file revised acreage dedication plats for these wells reducing the acreage from 640 to 480. These revised plats will be required at the time you file your completion for the McDonald WN #31 since the acreage dedicated to it is part of this section which has been dedicated to the referenced wells.

Very truly yours,

OIL CONSERVATION DIVISION
