Attention of Mr. R. F. Montgomery

Gentlemen:

We have recently found that our State E-17 No. 5, located in Unit L, Section 17, T-22S, R-36E, Jalmat Gas Pool, is producing liquids which in the interest of conservation should be collected. We propose to install a separator and metering facilities at this well in order that liquid production can be measured.

It is respectfully requested that permission be granted to commingle this fluid with South Eunice production on the State E-17 Lease as noted on the attached form C-110.

Yours very truly,
