

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the.....

Cities Service Oil Company Glosson "A" Well No. 3 NE SE
Company or Operator Lease
of Sec. 18, T. 22S, R. 36E, N. M. P. M., South-Eunice Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

The Cities Service Oil Company's Glosson "A" # 3 has experienced a strong water drive and water encroachment has flooded the well until it will not flow and on a swabbing test produces 100% water. It is intended to P.B. the well to shut off water, perforate casing and try to recompleate as a gas well in the following manner:

The well has a current P.B. depth of 3680' and has been producing from perforations in the casing between 3590' to 3530'. We propose to pull tubing, run a retainer to approximately 3520' and squeeze off the water by squeeze cementing. After the water has been successfully shut off we intend to perforate the 7" casing between 3430' and 3520' and try to recompleate the well as a water free gas well.

Approved..... NOV 2 1951 19.....
