

South Eunice Unit #18

30-025-08972

Recommendation to Temp. Abandon

This injection well is currently inactive. It is recommended that the well be temporarily abandoned (upon passing the following CIT test) in order to evaluate plans for further use and until an in-depth study of the waterflood has been completed.

*A cement plug (35 sks) has already been set with TOC at 3300.'

1. Circulate Casing with inhibited packer fluid.
2. Pressure test casing to 500# for 30 minutes. Give OCD 24 hrs notice prior to pressure test.
