Lea County.FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

On 3/5/56, the open hole section 3693'- 3789' was fraced with 20,000# sand in an attempt to increase production. Frac job resulted in 235 bbls salt water w/ no oil per day. The well is presently shut in.

We propose to run a spinner survey to determine the source of the water. If survey shown the water coming from a casing leak or from the bottom of the hole, a water shut off will be attempted.

In case a water shut off fails, we propose to plug back and complete for a gas well in the Yates, Queens & Seven River Zone.
