17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Production from this lease has declined and the water-oil ratio has increased so that installing disposal facilities as required is not economically feasible as this well makes 1.2 bbls. oil, 1.2 bbls. water and 1.6 MCF gas per day.

We propose to shut in this well until such time as it is taken into the South Eunice Unit, which will be operated by Continental Oil Company and which is now in the process of being unitized.
