Eunice, New Mexico

Gentlemen:

The latest gas-oil ratio test for your Meyer B-22 No. 4 in Unit K of Section 22, T-22-S, R-36-E indicates that the well has a ratio of 116,333:1.

In compliance with the provisions of Commission Order R-520, you are hereby advised that the oil allowable for the well will be cancelled effective September 1, 1958. This should give you sufficient time to apply for a non-standard proration unit and file Form C-128 showing the acreage to be dedicated, in order that a gas allowable may be assigned.

Yours very truly,

OIL CONSERVATION COMMISSION
