

Core No. 5 3783-3835' cut 52' rec 52': 3783.0-93.3' Dolo, fine crystalline, gray, dense. (3786.0-86.5' Shale, dark gray). 3793.3-96.0' Siltstone, green-gray, very shaley, tite, top .5' sandy, no shows. 3796.0-98.0' Shale, red-brown, becoming silty at base, tite. 3798.0-00.5' Sandstone, very fine grain, silty, green-gray, fairly soft, (water?). 3800.5-01.5' Siltstone, red-brown, sandy, tite. 3801.5-14.0' Dolo, fine xtln, gray-tan, dense. (03.8-04.2' streak red silty shale). 3814.5-15.5' Anhydrite top .2 shaley, gray. 3815.5-19.2' Dolo, fine xtln, gray-tan, dense. 3819.2-20.2' Anhydrite. 3820.0-26.8' Dolo, fine xtln, gray-tan, dense. 3826.8-27.8' Anhydrite. 3827.8-30.0' Dolo, fine xtln, gray, dense, very anhydritic at base. 3830.0-31.5' Anhydrite. 3831.5-33.5' Dolo, fine xtln to medium xtln, gray, dense. 3833.5-35.0' Anhydrite, .2' red shale at base.

Core No. 6 3835-3885' cut 50' rec 50': 3835.0-38.0' Anhydrite. 3838.5-42.2' Dolo, fine xtln, gray-pink, dense. 3842.4-43.5' Shale, dark red-brown, silty, anhydritic. 3843.5-45.2' Dolo, fine crystalline, gray-pink, dense. 3845.2-47.5' Siltstone, red-brown, very tite, anhydritic. 3847.5-49.0' Anhydrite. 3849.0-53.4' Siltstone, red-brown, very tite, dolomitic. 3853.4-54.0' Anhydrite. 3854.0-59.6' Siltstone, red-brown, very tite. Middle 3 ft very sandy, fine grain, tite, gray, no shows, no fluorescence. Very shaley at top and bottom. 3859.6-60.0' Dolo, fine xtln, gray, dense. 3860.0-65.5' Sandstone, very fine grain, light gray, fair porosity. No stain, no fluorescence (water?). 3865.6-67.4' Dolo, very fine xtln, gray, dense, bottom 0.4' very shaley. 3867.4-71.0' Sandstone, very fine grain, gray, fair porosity, no stain, no fluorescence (water?). (3867.7-68.5' Ss (as above) but softer, more friable, heavy black (dead oil stain), no fluorescence, fair odor. 3871.0-77.3' Dolom very fine crystalline, creamy gray, dense. (3873.6-74.0' Shale, dark greenish gray-black. 3877-82.0' Sandstone, very fine grain, gray, fair porosity, few spotty (dead oil?) stains, tastes salty. Has fair odor. 3882.0-85.0' Dolo, fine xtln, light gray, dense, top ft has several thin dark greenish-gray shale streaks.
