Re: Lease Las Cruces 131670(b)

Gentlemen:

Receipt is acknowledged of "Notice of Intention to Drill" dated April 6, 1956, covering your well No. 1-S Burger B-19 on the subject leasehold in the NW $\frac{1}{4}$  sec. 19, T. 20 S., R. 38 E., N.M.P.M., North Warren McKee Pool, Lea County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, copy of which will be furnished you on request, and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet (revised March 1954) for general conditions of approval.

Very truly yours,

H. A. DuPont  
District Engineer

U. D. Survey B-19 No. 1-6 Hobbs, New Mexico April 6, 1956

Well No. 1-3 is located 350 ft. from (N) line and 1650 ft. from (E) line of sec. 19  
NE 1/4 Section 19 20S 38E N. H. P. M.  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
North Warren McKee Pool Lea New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is ..... ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is our intention to drill a well at the above location to a total depth of approximately 9300' with rotary tools in an attempt to extend proven production from the North Warren McKee Pool and to further evaluate the possible existence of undeveloped McKee reserves connecting the North Warren McKee and Warren McKee Pools. All casing points will be cemented in accordance with approved methods of the U. S. Geological Survey and any other special requirements will be complied with.

It is planned to use the following casing patterns: 10 3/4" casing to be set at 250' and cemented with approximately 250 sacks, cement to be circulated. 7 5/8" casing to be set at 3,000' with approximately 1,350 sacks cement. 5 1/2" casing to be set at 9300' (total length) and cemented with approximately 430 sacks, and to be perforated opposite the pay zone.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
