DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to abandon the above well which was drilled to a total depth of 7456' by setting the following cement plugs 35 sacks at 7300', 35 sacks at 4350', 35 sacks at 2950, 35 sacks at 2700 and 10 sacks at top of surface with appropriate dry hole marker. 10.5# 30 Vis. 100 between cement plugs.

The above procedure was approved by telephone conversation with Mr. A. R. Brown, District Engineer, on March 27, 1964, and the above work was completed as proposed on April 2, 1964.

Final cleanup of this location will be delayed pending the moving of the drilling rig and your office will be notified when this work has been accomplished.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
