Gentlemen:

A recent inspection of your Mattern No. 1 located in Unit K of Section 30, T-21-S, R-37-E revealed a tank battery and sediment pit still to be on location. Before Form C-103 covering the plugging and abandoning of this well can be approved, it will be necessary that these be removed and filled and levelled.

Yours very truly,

OIL CONSERVATION COMMISSION

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

April 21, 1968

London, Texas
to the National Academy of Sciences
Washington, D.C.

Enclosed for the National Academy of Sciences is a report of the results of the investigation of the oil well in Unit 1 of Section 30, T-21-S, R-17-E, which was drilled in 1967 and sealed in 1968. The report is being submitted to the National Academy of Sciences for their information and for their recommendation regarding the sealing of this well. It will be necessary that these be removed and filled and sealed.

Very truly yours,

OIL CONSERVATION COMMISSION

Joe H. Ramsey
