Re: Application for Dual Tubingless  
Completion E. H. B. Phillips Well  
No. 2, Lea County, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

Attached is TEXACO's Application for Dual Tubingless Completion for the E. H. B. Phillips Well No. 2, located 1980 feet from the north line and 1980 feet from the west line, Unit F, Section 10, T-20, R-37, Lea County, New Mexico. TEXACO plans to complete this well as a dual tubingless oil completion in the Monument (Tubb) and Weir (Blaineby) Pools. It is anticipated that all zones will be oil completions and will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in TEXACO's L. R. Kershaw Well No. 9, Order No. B-2610.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's E. H. B. Phillips Lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

*H. D. Raymond*

- \* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.
- NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

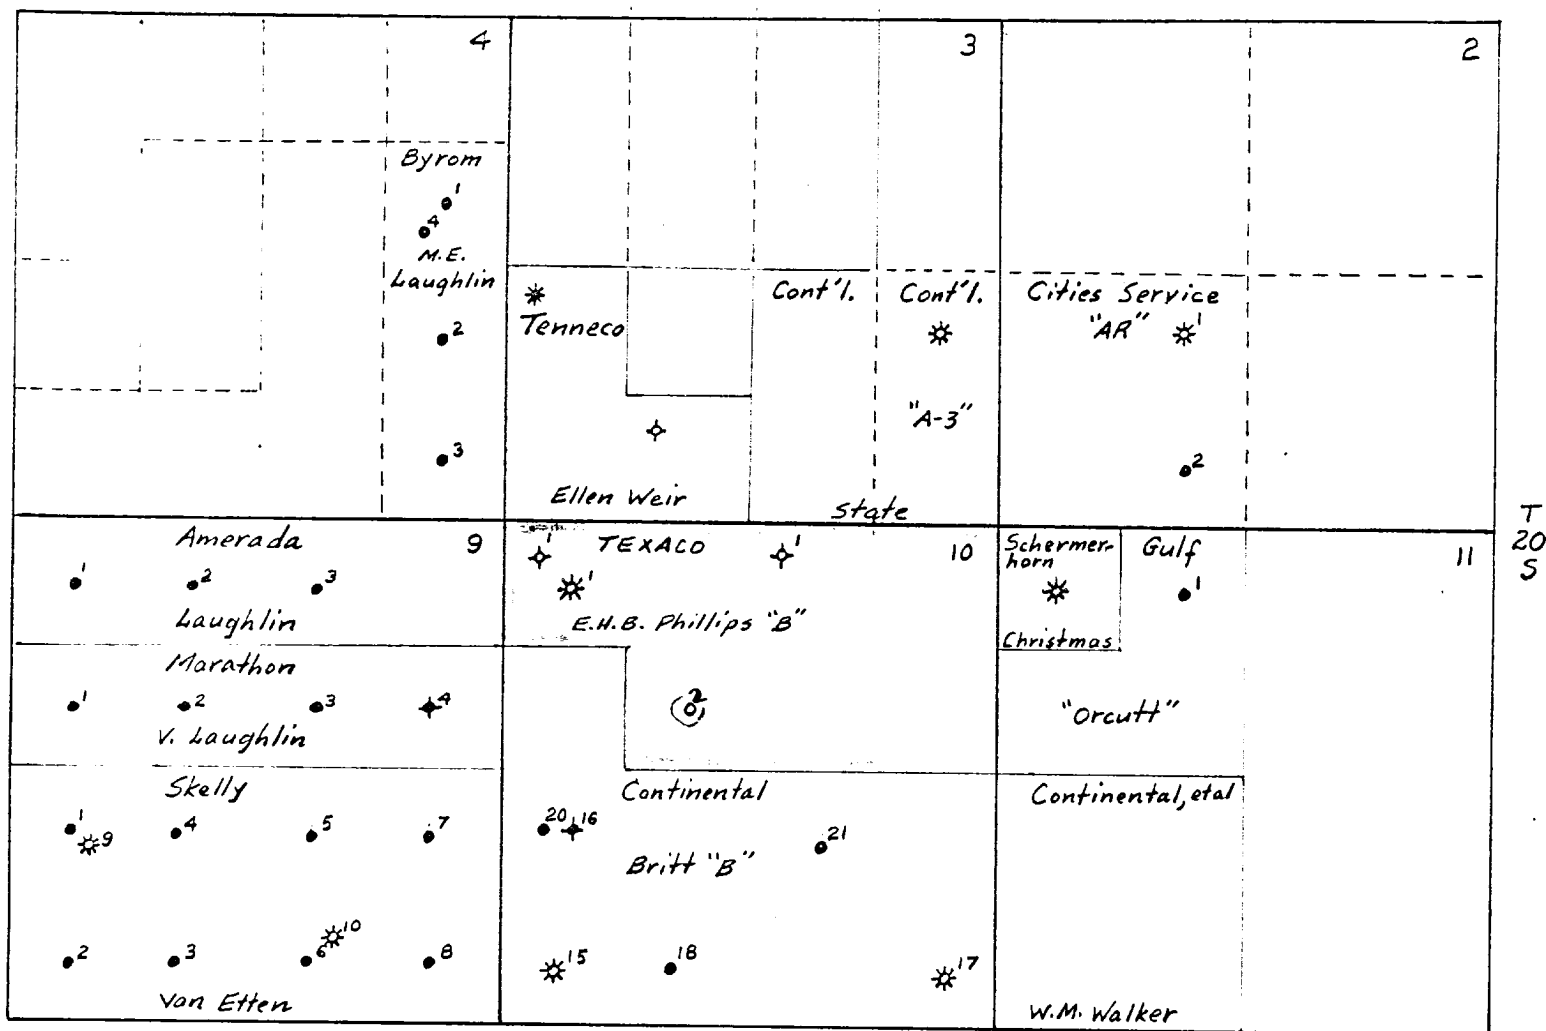

# DIAGRAMMATIC SKETCH SHOWING DUAL COMPLETION INSTALLATION (TUBINGLESS)

NOTE: Production casing cemented down both strings of 2-7/8" with 600 sx Class "C" 4% gel, followed w/1400 sx Class "C" 2% Gel. Cement volume equals 115% of calculated annular volume from T.D. up to surface casing.
