C-4.0432 STATEWIDE ORDERS
Dedication of Additional Gas
Well to Proration Unit

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

ATTENTION: MR. JOE D. RAMEY
SECRETARY-DIRECTOR

Gentlemen:

Administrative approval is requested to dedicate an additional gas well to the 280-acre proration unit established under Commission Order No. R-600. Currently, one (1) well, the E. H. B. Phillips No. 1 (see proration plat) is dedicated to this acreage. This well has failed to make top allowable gas production for the past two years (see Exhibit A).

By recompleting the E. H. B. Phillips "C" No. 1 (see proration plat) as a Eumont Queen producer, an additional 170 MCFPD will be produced from the dedicated acreage. This will not exceed the top allowable for the proration unit.

By copy of this letter, offset operators are being notified of our intention to dedicate an additional gas well to this acreage.

Yours very truly,

J. V. Gannon
District Superintendent
