Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1503.

Attempt a recompletion in the Paddock formation by setting a retrievable bridge plug above existing Blinebry perforations (5501-5923') and perforate the Paddock formation at 5188-5195'. Acidize with 2,000 gal 15% NE acid and swab test interval. If test reveals a commercial show of oil, the well will be returned to produce from the Paddock zone. (The Blinebry zone would be temporarily abandoned until commingling is deemed necessary).

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
