RE: Reclassification of Well
W.C. Roach #5
Unit F, Sec. 21, T20, R37
Eumont Yates SR-QN Pool

Gentlemen:

According to the recently submitted scheduled Gas/Oil Ratio Test the above-referenced well will be reclassified from an oil well to a gas well effective July 1, 1994.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by May 11, 1994.

If the well is to be reclassified to a gas well in the Eumont Pool you will need to file the following:

- 1.) C-102 acreage dedication plat, outlining a standard 640 acres proration unit or application for a NSP.
- 2.) C-104 showing reclassification from oil to gas effective July 1, 1994 and indicating transporters of condensate & dry gas.
- 3.) Indicate if gas well gas is separately metered.

If you have questions concerning the above, please contact or Donna at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION
