Administrative Order No. MEC-631

Adobe Resources Corporation  
Adobe Division  
1100 Western United Life Building  
Midland, Texas

Attention: Lennie Arnold

Re: Linda Federal No. 1 Well, Unit K,  
Sec. 23, T-20-S, R-38-E, N3PM,  
Lea County, New Mexico  
Blindley Oil & Gas and Warren Tubb  
Pools

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production from the well shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2,000 by top unit allowable for the Warren Tubb Oil Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Blinchry Pool: Oil 42%, Gas 73%  
Tubb Pool: Oil 58%, Gas 27%

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, commingling is not being best served by such commingling.

Very truly yours,  

R. L. SEAFELT,  
Director
