Re: Recompletion Wood A State #3-F
Sec. 16, T20S, R37E

Gentlemen:

Your recompletion forms have been received for the above-referenced well. However, before we can process them you will need to have NSP-476 amended to show well #3 instead of #2. Also, the location of #3 (2310/N & 1650/W) is unorthodox. You can make an administrative application for the NSL and the dedication of the previously approved 80-acre proration unit to well #3 in the same letter.

If you have any questions, please let me hear from you.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
