17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

In May of 1983 Marathon Oil Company requested permission to downhole commingle the Wantz Abo (6833 - 7218) and the Wantz Granite Wash (7254 - 7330). Because of the large difference in bottom-hole pressure between the two producing zones permission to downhole commingle would require a hearing. Marathon has since decided to produce only from the Wantz Abo. Therefore the status of this well has been changed from a dual to a single. A Baker Lok-Set packer with a profile nipple and plug was set at 7233' isolating the two zones from one another.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
