Re: Simultaneous Dedication  
McDonald State WN Nos. 11, 27, 28  
Jalmat Tansill Yates Seven Rivers Gas  
Section 14, T-22S, R-36E  
Lea County, New Mexico

Gentlemen:

Atlantic Richfield Company respectfully requests administrative approval to simultaneously dedicate a previously approved 640-acre standard Jalmat gas proration unit to three wells, the McDonald State Nos. 11, 27, and 28. Presently the unit, all of Section 14, T-22S, R-36E, is classified as non-marginal, but has accumulated a large underage. Permission to produce the unit allowable from either or both wells 11 and 27 was granted to Atlantic Richfield Company by New Mexico Oil Conservation Commission Order R-4984 on March 11, 1975. Atlantic Richfield Company plans to drill the McDonald State No. 28 in an orthodox location 2310' from the north and west lines of Section 14. It is felt that producing the unit allowable from any or all three of the wells in Section 14 will permit the reduction in the underage and prevent the unit from being classified as marginal.

Atlantic Richfield Company believes approval of this request will protect correlative rights, promote conservation, and encourage the efficient recovery of gas reserves. Attached are an acreage dedication plat, a map of the area, and a list of offset operators who are being notified with a copy of this application.

Very truly yours,

Jerry L. Tweed  
District Engineer
